## Our Mission

Levetec Surface Preparation Equipment, LLC is a distributor and manufacturer of quality diamond tools and surface preparation equipment in the stone and concrete market. We are determined to provide the best possible diamond tools and surface preparation machines that allow the realization of our customer's optimum goals. We also noted that not all the customer's needs were being met with the available choices. We decided to produce our own machines with the goal in mind of reaching these results. Creating and producing our own machine also enabled us to have control over RPM, speed and feed, relative pressure, amount of resistance of the bonds on the tools, and to design in many more user-friendly aspects.

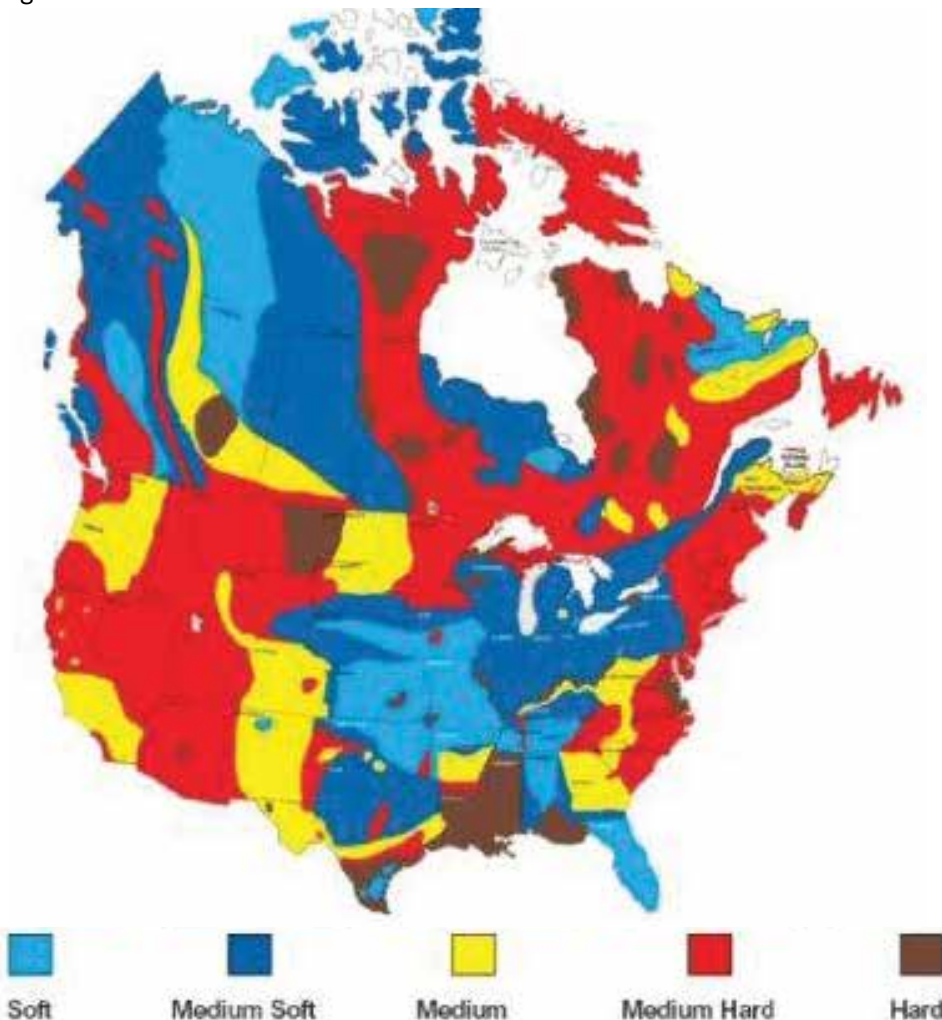

We are satisfied with the results that have been achieved up to this point. However, we will still continue to develop new technology and ideas in an effort to produce the most efficient machine possible.

## Our Commitment

Levetec Surface Preparation Equipment, LLC is committed to providing the very best solutions through our diamond products and services available to our customers in several industries.

Our customers have come to rely on the consistent quality and performance we deliver time after time, providing state-of-the-art technology and equipment. Customer satisfaction is a vital and well-established part of our company. The employees of Levetec are here to assist with any needs, questions, or concerns that our customers may have. The best effort is put forth to solve any problems in the most timely and efficient manner.

Our dedication to customer satisfaction is evident in the pride we take in our people, our products, our customers, and our promise to always remain committed and grateful.

## BUSINESS TERMS

- Operating hours are Monday-Friday: 7:00 a.m. to 5:00 p.m. Pacific Standard Time.
- Orders placed by 2:00 p.m. PST can be shipped out the same day to our customers.
- Our normal shipping method is via FedEx or UPS, but we have the ability to ship with most carriers. International shipping is also available.
- Payment prior to delivery. Machine orders will be scheduled to ship after payment is received.
- All shipments are FOB Seattle (Redmond), WA unless otherwise stated.
- Pricing is subject to change due to cost increases. However, we strive to deliver the lowest possible cost to our customer that is a combination of purchase price and product performance.

## DAMAGED SHIPMENTS

**ATTENTION:** We check and inspect all packages before sending. Great effort is made on our side to make all shipments damage proof. Please check all shipments upon delivery carefully before signing acceptance signature of package. If damage is found, have the driver sign an acknowledgement of damage, reject delivery, return to sender, and contact us immediately.

## OUR RETURN POLICY

While we do stand behind the integrity of our products, we ask that you contact a Levetec representative prior to sending back any purchases. This will enable us to first find a solution to any problem over the phone. Levetec does not accept returns after 14 days following the Purchase date. All returned items are subject to inspection to insure product has not been used or misused prior to processing a credit. In the event and at our discretion, we choose to accept a return after 14 days, a 25% restocking fee will result.

For special items made specifically at a customer's request, those items are non-refundable and non-returnable. There are exceptions made in the case of manufacturer's defect. Please include company name, address, telephone number, and brief description of problem with any returns sent back to us.

Levetec warranty does not include cost of transport.

## LEVETEC WARRANTY POLICY

All new machines are guaranteed from defects of materials and workmanship under normal use and that have been serviced regularly, during the specific warranty period of each model type. All tooling have no long term warranties, but will be replaced or repaired if delivered in a defective state. The warranty is limited to replacement of parts only, no labor charges will be paid unless agreed too prior to sale. All machines will be repaired including parts and labor if deemed under warranty and returned to LEVETEC in Redmond, WA. USA

This warranty does not apply if, in the judgement of LEVETEC, the product fails due to damage from shipment, handling, storage, accident, abuse, misuse or tampering, if it has been used or maintained in a manner not conforming to product manual instructions, has been modified in any way, or has had any serial number removed or defaced. Repair by anyone other than Levetec or an approved agent will void the warranty. The maximum liability of LEVETEC under this warranty is limited to replacement of the product covered by the warranty.

## LIABILITY

Except as specifically provided in this agreement or as required by law, the warranties and remedies stated above are exclusive and in lieu of all others, oral or written, express or implied. Any and all other warranties, including implied warranties of merchantability, fitness for a particular purpose and noninfringement of third party rights are expressly excluded. Levetec shall not under any circumstances be liable to any person for any special, incidental, indirect or consequential damages, including without limitation, damages resulting from use or malfunction of the products, loss of profits or revenues or costs of replacement goods, even if LEVETEC is informed in advance of the possibility of such damages.

## WHY LEASE? OR SHOULD WE SAY, "WHY NOT LEASE?"

- Less Impact on Cash Flow
- Tax Benefits (consult your CPA for advice)
- 100% Financing, including soft costs (shipping, installation, training)
- Conservation of Credit and Capital
- Reduced Paperwork, one page application and no financial statements are required for purchases under \$75K
- Options for Purchase or Renewal
- Reduced Interest Rate Risk
- Will not show up on your personal credit so it's not "exposed" to other lenders as a debt
- Secured by the equipment on the lease, not a blanket lien on your business or any other equipment that you own
- Quicker approvals and funding than a Bank
- No experience or time in business required – Great for startups
- Many different Programs available to suit your business' needs - including no payments for 90 days or only \$99 for the first few months so you can start making money off the equipment before you start paying on it! You can even set up lower payments during your slow season every year.
- Up to 60 months terms
- No prepayment penalty
- Ability to purchase equipment when you need it –Never having to turn down a job because you're not set up for it

## APPLYING FOR A PURCHASE OR LEASE

Obtaining a lease is much easier than you think;

1. Contact Levetec or a company below to obtain a ONE PAGE financing application
2. A Financial Analyst will then help you to choose the financing option that best suits your company's needs
3. Obtain approval (within 24 to 48 hours)
4. Then you're ready to select the equipment to be financed

***So don't hesitate, call today to get approved and on your way to increasing your business opportunities!***

# Avenger 460

Avenger 460 is a great machine for smaller jobs. The size and weight allow for easy loading and unloading at the jobsite and offers ease of moving through smaller spaces. The Avenger 460 is extremely versatile, can be used anywhere from floor preparation to polishing, and you won't be disappointed with the results.

## Features:

- Compact and light, and can collapse for transport
- Perfect for Concrete, Stone, Terrazzo and Wood
- Variable speed, counter-rotating heads
- Coarse grinding, surface preparation, epoxy/coatings removal, polishing, maintenance
- Instant Change System™ magnetic metal plates with removable velcro attachments
- All steel gears

## SPECIFICATIONS

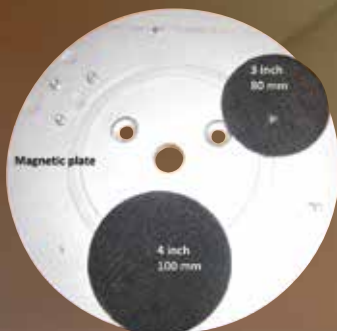

Motor	4 hp
Voltage	220V Single phase
Weight	350 lbs
Working Width	19 in
Speed	300-1200 rpm
Tank Capacity	6.6 gal (25 liters)
Abrasive Plates	Three 8" plates

## Average Production Rates Per Day\*

Marble:	800 – 1000 ft <sup>2</sup>
Terrazzo:	1200 - 1500 ft <sup>2</sup>
Granite:	300 – 420 ft <sup>2</sup>
Concrete:	2000 - 3000ft <sup>2</sup>
Glue Removal:	700– 1500 ft <sup>2</sup>
Paint Removal:	1300 – 3200 ft <sup>2</sup>

*\*Production rates may vary due to job conditions, tooling, operator, etc.*

Instant Change  
Magnetic Plates

# Expander 1000

The first completely remote controlled grinding machine with 6 counter-rotating staggered heads for perfect surface levelling.

- Innovative system of quick change tools: with actuators the head lifts 90° allowing the operator to change the tools without having to lift the grinding machine.
- Adjustable work pressure from 500Kg to 750 Kg: with an central actuator it is possible to supply more or less pressure to the tools.
- Completely gear driven for superior durability and reliability: there are no belts that are subject to breaking.
- Radio Remote control: multidirectional joystick to avoid vibrations to the operator.
- Maximized silence in order to work in any environment.
- Removable front wheel for easy transportation.
- Planetari inclination to allow a bigger amount of frontal removal pressure.
- Greaser included for fast and effective maintenance.
- Maximum Performance from large head pressure.

# Expander 750

## Features:

- Total Gear drive system.
- Pivots from a center point right over the center of gravity.
- Grinding head can be raised and lower electrically - mill off the high points and then lower head as needed.
- No job is too big a challenge to the **EXPANDER!** A powerful 15 HP motor powers this machine, yet it's so well balanced that it can be literally controlled with two fingers!
- Bush-hammering (scarification), grinding, honing and polishing are achieved with a productivity rate two to three times higher than competitive machines.
- Narrow passages? Tight Corners? No problem, the EXPANDER lays claim to a one-of-a-kind feature by which it is possible to adjust the down pressure on the grinding pads!

Made in Italy the home of polished floors for over 2000 years. Large commercial floors have found their match in the **EXPANDER** – another Levetec statement of cutting-edge technology! Its **PATENTED PLANETARY SYSTEM** is not driven by belts but by Hardened Gears this sets the **EXPANDER** in a league of its own, with no competition. Thanks to this exclusive technology, it's the only machine of its kind with an adjustable grind height feature. The list of features is almost endless.

## SPECIFICATIONS

Motor	15 hp
Amperage	24 A
Voltage	480V/60 Hz
Weight	750 lbs
Working Width	31 in (650-787mm)
Speed	300-1300 rpm
Tank Capacity	12+gal (46 liters)
Abrasive Plates	9.5 in (240mm)

**No Belts! All Gear Operation.**

**ORDER TODAY!! 866.538.3832**

# Expander 750

## Recommended Package

Item Number	Description	Quantity
Expander 750	Expander 750RX Variable Speed Grinder	1
LA-30M	Diacrete Double Round Metal Diamond Segments 30 Grit	9
LA-60M	Diacrete Double Round Metal Diamond Segments 60 Grit	9
LA-120M	Diacrete Double Round Metal Diamond Segments 120 Grit	9
HFP38100	3 in Semi-Metal Polishing Pad, 8 Segment, 100 Grit	9
HFP38200	3 in Semi-Metal Polishing Pad, 8 Segment, 200 Grit	9
A-400	Diacrete Resin Polishing Pads 400 Grit	9
A-800	Diacrete Resin Polishing Pads 800 Grit	9
A-1500	Diacrete Resin Polishing Pads 1500 Grit	9

# Levighetor 600

## S P E C I F I C A T I O N S

Motor	4 hp
Voltage	220-240 V
Weight	106 lbs
Working Width	17 - 21 in (430-530mm)
Speed	200 rpm
Tank Capacity	5 gal (18 liters)

The LEVIGHETOR 600 is the centerpiece of the medium-sized floor grinding machines in Levetec's line-up. It's arguably a breakthrough that has literally introduced a new way to grind, hone and polish marble, limestone, travertine and granite floors! With its powerful 4 HP peak motor, it's the only single phase buffer in the world that can handle additional weights up to a total of 350 lbs (160 Kg.) without breaking a sweat!

**ORDER TODAY!! 866.538.3832**

# Kroma 17

## SPECIFICATIONS

Motor	2.5 hp
Voltage	110 V
Weight	106 lbs (48kg)
Working Width	17 in (430mm)
Speed	155 rpm
Tank Capacity	5 gal (18 liters)

The Kroma is designed for heavy duty applications. With an innovative 2.5 hp motor it's the most powerful single phase cleaning machine in the world. Thanks to its great range of available accessories this machine is capable of handling many types of jobs from grinding to polishing to buffing.

## TOOL PACKAGE

### Lippage Tools

4in Turbo Style Vacuum Brazed Pads  
Velcro Backed – 16, 30, 50, 100, 200 Grits

### Polishing Tools

4in Diacrete Polishing Pads – Velcro Backed – 50, 100, 200, 400, 800, 1800, 3000 Grits

**ORDER TODAY!! 866.538.3832**

# Avenger Propane

## 24"

### SPECIFICATIONS

Motor	13 or 17 hp
Voltage	110 V
Weight	275 lbs
Working Width	
Brush Speed	325 rpm
Brush Size	3 – 10"
Performance	21,500 sq ft per hour

The Avenger Propane machines are aggressive machines that easily remove floor coating in one pass. Planetary driven heads eliminate torque and transport wheels reduce labor.

- 3 rush planetary design
- Simple design reduces maintenance
- Transport wheel standard reduces fatigue
- Standard catalytic muffler lowers emissions

## 27"

### SPECIFICATIONS

Motor	17 hp
Voltage	110 V
Weight	300 lbs
Working Width	
Brush Speed	325 rpm
Brush Size	3 – 10"
Performance	24,500 sq ft per hour

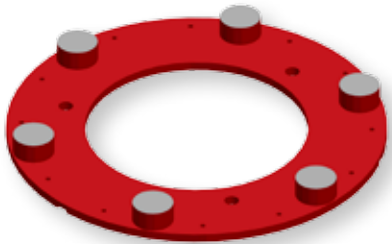

**ORDER TODAY!! 866.538.3832**

# Diamond Plate Layout Options

## 3 Segments

Designed for hard concrete applications, allowing more down pressure.

## Standard 6 Segments

Ideal for leveling floor.

## Standard 6 Segments

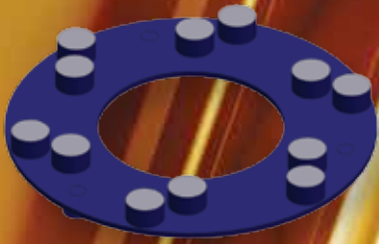

Great for uneven floors, designed to follow floor surface.

## 12 Segment plate

Designed for very soft floors, increases surface area and leveling.

**ORDER TODAY!! 866.538.3832**

# Diacrete Metal Series

## Diacrete Series

The diamonds in our Diacrete Series have proven themselves to out last the standard size diamonds commonly used in the industry. Most popular tool for grinding and leveling floor, and can be used either wet or dry. Available in varied bonds, depending on hardness of concrete you are working on for maximum performance.

### Diacrete Double Round Metal Bond Diamond Segments

(25mm wide x 12mm high) Leave less unwanted scratches

- LA-30S 30 Grit Soft Bond
- LA-30M 30 Grit Medium Bond
- LA-30H 30 Grit Hard Bond
- LA-60S 60 Grit Soft Bond
- LA-60M 60 Grit Medium Bond
- LA-60H 60 Grit Hard Bond
- LA-120M 120 Grit Medium Bond
- LA-120H 120 Grit Hard Bond
- LA-200M 200 Grit Medium Bond

- LA-16M 16 Grit Medium Bond
- LA-16H 16 Grit Hard Bond

## Budget Line Tools

### Extra Hard Concrete

- 1820ES - 18/20 Grit, Extra Soft Bond
- 3040ES - 30/40 Grit, Extra Soft Bond
- 6080ES - 60/80 Grit, Extra Soft Bond
- 120150ES - 120/150 Grit, Extra Soft Bond

# Coating Removal Tools

## Diacrete Scraper Tools

Designed for quick removal of any coatings, such as epoxy and glue from concrete floors.

The Diacrete Scraper tool works by riding on the tail disk which limits travel of the tool into the concrete surface. This allows the head to scrap away coatings or glue, but not damage the concrete. The tail itself will in time develop a sharp edge that will also help remove coatings.

**PCDH-Clockwise** PCD Scraper

**PCDH-Counterclockwise** PCD Scraper

## Diacrete Combo Tool

**DCT Scraper Clockwise**

Diacrete Combo Tool - 2 segmented PCD Scraper with a diamond segment trailer - Left Trapezoid

**DCT Scraper Counter Clockwise**

Diacrete Combo Tool - 2 segmented PCD Scraper with a diamond segment trailer - Right Trapezoid

## STI Scraper Tools

STI scrapers are very useful for removing coatings and glue from concrete floors.

The PCD scrapers generate less heat than grinding and therefore do not remelt the coating and smear it around the floor.

Rather than grinding through the coating or glue which would take some time and mess, the PCD scrapers just scrape the coating off. Leaving the concrete almost clean and ready to be cleaned up by a quick pass with a diamond tool.

**592043** Snap on Piranha

To remove thin coatings from concrete surface such as paint, flaking glue, remnants of carpet - removes debris with minimal damage to floor. Porous, soft floors can tear with this tool.

## Diacrete Vacuum Brazed Pads

This tool handles heavy lippage jobs on marble. The fully exposed diamond makes this a hard working, aggressive tool.

**TC3016** 3in Turbo Style Vacuum Brazed Pad - Velcro Backed - 16 Grit

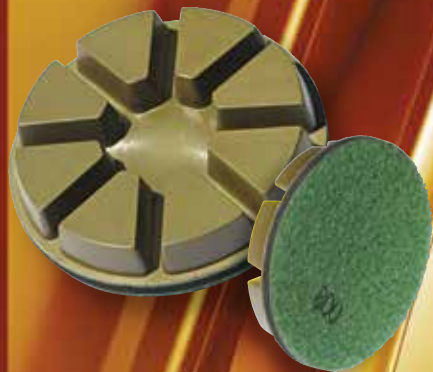

**TC3030** 3in Turbo Style Vacuum Brazed Pad - Velcro Backed - 30 Grit

**TC3050** 3in Turbo Style Vacuum Brazed Pad - Velcro Backed - 50 Grit

**TC3100** 3in Turbo Style Vacuum Brazed Pad - Velcro Backed - 100 Grit

**TC3200** 3in Turbo Style Vacuum Brazed Pad - Velcro Backed - 200 Grit

# Resin Diamond Tools

## Diacrete Resin Polishing Discs

Velcro Backed, Wet/Dry

<b>A-50</b>	3in, 50 Grit	<b>4A-50</b>	4in, 50 Grit
<b>A-100</b>	3in, 100 Grit	<b>4A-100</b>	4in, 100 Grit
<b>A-200</b>	3in, 200 Grit	<b>4A-200</b>	4in, 200 Grit

# What are they?

**New Floor Diamond Discs that Wash like a sponge, polish like a diamond!**

Levetec introduces the innovative "SuperShine & SpongeLux" system for floor restoration and maintenance of marble, terrazzo and polished concrete. SuperShine & SpongeLux discs restore the shine to dull and worn floors.

**SuperShine** is a new abrasive disc covered with a special diamond resin. Available in 3 different grits, they are able to clean and restore the original shine.

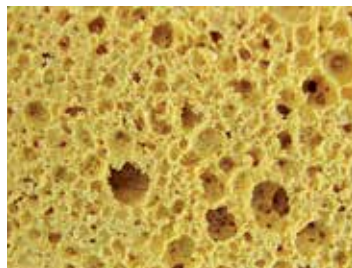

**\*FOR WET USE ONLY\***

**SpongeLux** is a special sponge disc, that is able to wash and polish with only one step, thanks to its special composition, impregnated with polishing compound.

SpongeLux is the ideal solution for standard maintenance of all types of surfaces since it provides great results and keeps floors shining.

**\*FOR WET USE ONLY\***

## How to use them?

"SuperShine & SpongeLux" are easy to use! They are available in the same standard sizes of Floor Discs normally sold all over the world. They can be applied on any type of monobrush and autoscrubber on the market without modification. **For wet use only.**

Using "SuperShine & SpongeLux" regularly, instead of the traditional Floor Discs, allows you to restore and maintain a shiny surface continually without changing your normal maintenance routine.

The combination of SuperShine1, SuperShine2 and SuperShine3 will allow you to replace dulled foot traffic wear patterns with a beautiful shiny floor.

SpongeLux, thanks to its advanced formula, with one step, cleans and polishes marble, granite, porcelain tile and concrete giving it a mirror effect...quickly! Regularly used, your floor will remain clean and shiny without hard work.

	Treatment With	Result
Restoring Worn Floors	SuperShine1 (400 grit)	Honed
	SuperShine2 (800 grit)	Semipolished
	SuperShine3 (1500 grit)	Polished
	SpongeLux	Shiny
Ordinary Maintenance	SpongeLux	Shiny
Extraordinary Maintenance	SuperShine3 (1500 grit)	Polished
	SpongeLux	Shiny

**ORDER TODAY!! 866.538.3832**

With the new "SuperShine & SpongeLux" discs, the floor becomes shiny, smooth without scratching as if it was just polished.

With the traditional system, using normal floor discs, the floor loses its shine, remains scratched and becomes opaque.

**SuperShine & SpongeLux**

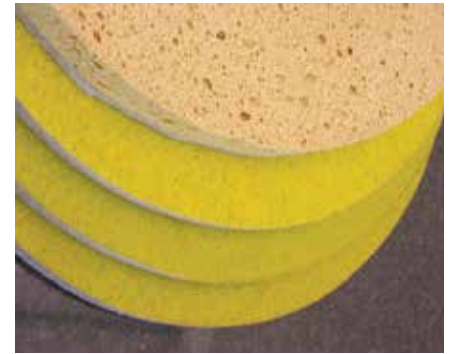

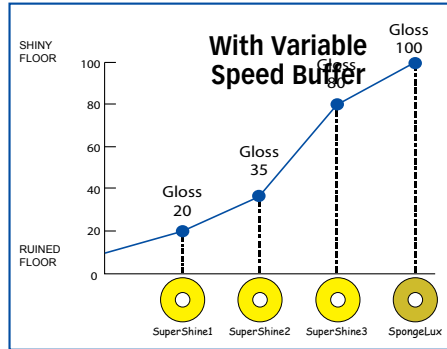

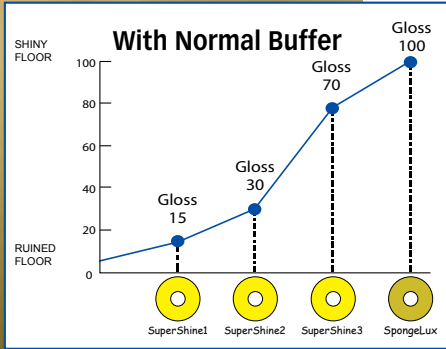

**ADVANTAGES**

- The floor remains incredibly shiny and bright, as if it was just polished without using special polishing machines or products
- It removes dullness
- It removes even the most tenacious dirt and spots
- Fast and Easy to use!
- No damage risk
- Easy maintenance, one product cleans, polishes and protects
- Economic: With SuperShine & SpongeLux you reduce cost because you do not need to use a lot of products
- Ecologic
- NO WAX! mechanical shine
- The regular use of SpongeLux protects and waterproofs, in this way the floor becomes more resistant to dirt and spots

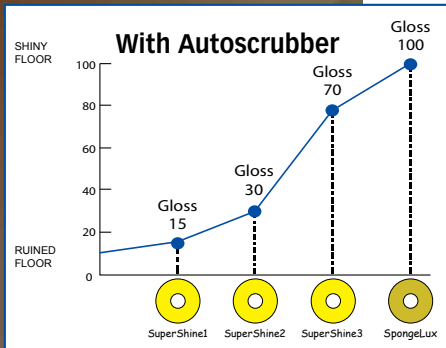

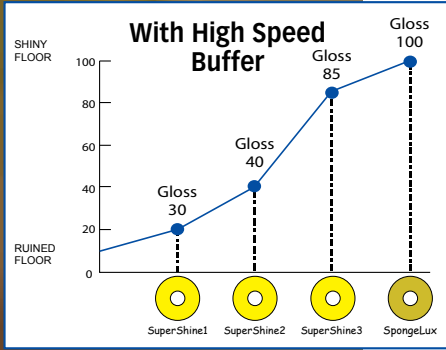

**Traditional Maintenance**

**DISADVANTAGES**

- With the passing of time, the shine disappears and it is necessary to restore the floor with a smoothing system
- It does not remove dullness
- It does not remove the most tenacious dirt
- Takes more time...
- Possible damage risk using non suitable products
- Difficult maintenance...
- You increase the cost for various chemical products
- There is more need of chemical products
- Sometimes wax is needed in order to produce the shine and this makes the maintenance more expensive and frequent
- The continuous use of classic detergent tends to deteriorate the floor and increase the porosity, causing dirt to adhere to the floor

"SuperShine & SpongeLux" are available in different sizes and can be used with any type of monobrush and autoscrubber.

**SuperShine & SpongeLux 8"**

- 30181 SuperShine1
- 30182 SuperShine2

# Norton Maintenance Pad

Norton Maintenance Pads are a diamond maintenance pad that can be used on polished concrete, marble, terrazzo, ceramic tiles, vinyl and epoxy floors. The diamond pads clean and polish the floor mechanically instead of using chemicals. Use the Norton Maintenance Pads to transform your dull, worn floors into a clean, glossy, and brightly polished surface. Not recommended for granite.

Dry mop the floor, removing obvious debris and dirt. Select the appropriate grit of diamond maintenance pad. Scratches are removed or greatly reduced and floor is left clean and smooth.

Gloss levels achieved are dependent upon the weight of the machine used. The heavier the machine and faster the pad speed, the better results you will achieve. In most cases you will want to use the coarse pad wet and the medium to fine pads dry.

The Norton Maintenance Pads come in various sizes and fit a variety of machines.

## Sizes

7", 13", 17", 20" and 27"

## COARSE (400 Grit)

Perfect for cleaning and resurfacing concrete or natural stone floors. It works well for floors that are very dirty with light scratches.

## MEDIUM (800 Grit)

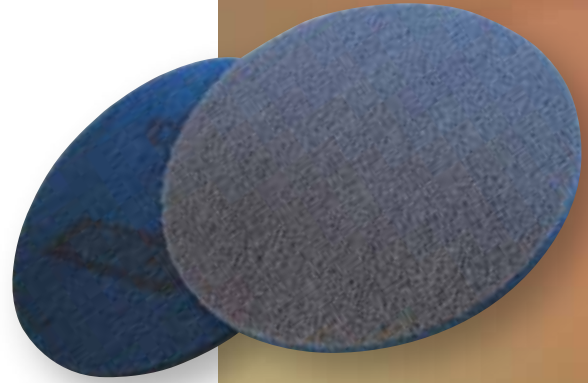

The second step to resurfacing a natural stone or concrete floor. It can also be the starting pad if the floor is slightly dirty with faint scratches.

## FINE (1800 Grit)

The third step to resurfacing a natural stone or concrete floor. It can also be used as a maintenance pad for most surfaces to keep floor shiny.

## VERY FINE (3000 Grit)

The final step to resurfacing a natural stone or concrete floor. It is also recommended for on-going maintenance of the floor.

# Avenger Buffer

The Avenger Buffer is the ultimate multi-purpose machine. Capable of stone polishing, floor maintenance and cleaning jobs. An array of optional tools available make this machine a must have.

## SPECIFICATIONS

Motor	2 HP
Voltage	220V Single Phase
Weight	130 lbs

# Extrema

## No Pain, no gain! Right?...

Wrong! It's only gain with no pain, with the Extrema edging machine! Hands-down, it is the best designed and engineered edging machine on the market today! Extrema's 360° steering handle allows the operator to precision-grind and hone edges right up to the wall while standing up, and at a speed much faster than anything else! A 220V variable speed single phase powerful motor motivates two counter-rotating grinding/honing elements. The incorporated vacuum system allows for virtually dust-free operation. It can also work wet, with the additional optional water-tank.

# Avenger Countertop

## Countertop Polisher

The Avenger Legend is a rugged, hand operated 13 inch PLANETARY grinder/polisher machine. It has three 5 ½ inch velcro plates and can operate wet or dry.

### SPECIFICATIONS

Power	110V
Current	10 amp draw
Working Width	13 in.
Variable Speed	500 to 1500 rpm
Weight	40 lbs.

## L-1200

### Variable Speed Hand Grinder

Specifically designed for concrete grinding and polishing. Variable Speed from 0 to 1750rpm (will not spin off Velcro pads). Comes with 7in Dust Muzzle and flex hose for ease of use and to connect to vacuum system. See hand grinder accessories page for more options.

See  
Accessories  
on Page 49

## Oscillating Tool Package

Variable Speed Oscillator, 120V, 10,000 to 20,000 OPM.

### Package includes:

- 3in Triangle Velcro Backing Pad
- Triangle Carbide Pad for Course Grinding of Concrete and Soft Stone
- ElectroPlated Triangle Pads 60, 120, 200 and 400 Grit
- Resin Triangle Pads 800, 1800, 3500 Grit

ONLY  
\$135

# Cup Wheels

## Segmented Turbo Cup Wheels

Most efficient way to grind all types of surfaces; concrete, masonry, brick block, stone. Ideal for aggressive grinding and epoxy removal as well. Provides faster removal of materials.

<b>CWFT4-10</b>	4in Segmented Turbo Cup Wheel – 10 Segments, 5/8-7/8 Hole
<b>CWFT45-18</b>	4.5in Segmented Turbo Cup Wheel – 18 Segments, 5/8-7/8 Hole
<b>CWFT5-18</b>	5in Segmented Turbo Cup Wheel – 18 Segments, 5/8-7/8 Hole
<b>CWFT7-12</b>	7in Segmented Turbo Cup Wheel – 12 Segments, 5/8-7/8 Hole
<b>CWFT7-24</b>	7in Segmented Turbo Cup Wheel – 24 Segments, 5/8-7/8 Hole

<b>CWFT4-10T</b>	4in Segmented Turbo Cup Wheel – 10 Segments, 5/8-11 Thread
<b>CWFT45-18T</b>	4.5in Segmented Turbo Cup Wheel – 18 Segments, 5/8-11 Thread
<b>CWFT5-18T</b>	5in Segmented Turbo Cup Wheel – 18 Segments, 5/8-11 Thread
<b>CWFT7-12T</b>	7in Segmented Turbo Cup Wheel – 12 Segments, 5/8-11 Thread
<b>CWFT7-24T</b>	7in Segmented Turbo Cup Wheel – 24 Segments, 5/8-11 Thread

## Rowed Cup Wheels

Ideal for beveling, smoothing and shaping.

<b>CWSR4</b>	4in Single Row Cup Wheel, 5/8-7/8 Hole
<b>CWSR45</b>	4.5in Single Row Cup Wheel, 5/8-7/8 Hole
<b>CWSR5</b>	5in Single Row Cup Wheel, 5/8-7/8 Hole
<b>CWSR7</b>	7in Single Row Cup Wheel, 5/8-7/8 Hole

<b>CWSR4T</b>	4in Single Row Cup Wheel, 5/8-11 Thread
<b>CWSR45T</b>	4.5in Single Row Cup Wheel, 5/8-11 Thread
<b>CWSR5T</b>	5in Single Row Cup Wheel, 5/8-11 Thread
<b>CWSR7T</b>	7in Single Row Cup Wheel, 5/8-11 Thread

<b>CWDR4</b>	4in Double Row Cup Wheel, 5/8-7/8 Hole
<b>CWDR45</b>	4.5in Double Row Cup Wheel, 5/8-7/8 Hole
<b>CWDR5</b>	5in Double Row Cup Wheel, 5/8-7/8 Hole
<b>CWDR7</b>	7in Double Row Cup Wheel, 5/8-7/8 Hole

<b>CWDR4T</b>	4in Double Row Cup Wheel, 5/8-11 Thread
<b>CWDR45T</b>	4.5in Double Row Cup Wheel, 5/8-11 Thread
<b>CWDR5T</b>	5in Double Row Cup Wheel, 5/8-11 Thread
<b>CWDR7T</b>	7in Double Row Cup Wheel, 5/8-11 Thread

## Continuous Rim Cup Wheel

<b>CWTG4C</b>	4in Continuous Rim Cup Wheel – Course Grit – 5/8-11 Thread
<b>CWTG6C</b>	6in Continuous Rim Cup Wheel – Course Grit – 5/8-11 Thread
<b>CWTG7C</b>	7in Continuous Rim Cup Wheel – Course Grit – 5/8-11 Thread

# Dustless Wet/Dry Vacuum

- 100% recommended by Handyman Club of America
- Patented filter system provides three layers of filtration
- Designed to capture extra fine dust
- Excellent for drywall, concrete, stone & fiberglass
- Switch from dry to wet vacuuming without changing filters
- Clean filters without opening canister
- Uses WunderBag™ for "almost HEPA" performance
- Quiet operation, only 81 decibels
- Powerful 23,000 RPM 11.5 amp electric motor

## SPECIFICATIONS

CFM	126.39
Volt	120
Amps	10.6
Decibels	79
Gallon capacity	16

## Shrouds & Accessories

### Dustie® Dust Shroud

The Dustie captures 99% of airborne particles at the point of origin, never letting them contaminate your environment. The Dustie fits easily on most hand grinders.

### DiscBuddie™ Dust Shroud

The DiscBuddie is a point-of-origin dust control shroud that meets EPA RRP requirements ONLY if it is used with a certified HEPA vacuum that is specifically designed for hazardous materials. It can be used to capture non-hazardous dust with any high-quality shop vacuum.

### CutBuddie™ Dust Shroud

The CutBuddie is simply the best dust collection system you can find for hand grinders. Durable, unobtrusive, easy to install and reliable. It is an ideal tool for renovation contractors who have to use point-of-origin dust collection tools to comply with EPA regulations covering lead paint removal.

**ORDER TODAY!! 866.538.3832**

# Shrouds & Accessories

## DustBubble™ Dust Free Drilling

DustBubbles are disposable dust collectors for DIY or industrial drills. They use a combination of adhesion to the wall and the action of the drill itself to catch virtually all the dust when you drill. They make drilling jobs easier - leaving both hands free while you drill and saves you the clean up afterwards.

## ChipBuddie™ Dustless Paint Scraper

The ChipBuddie dustless paint scraper is an excellent tool for the professional painter, handy man or homeowner. Priced economically, the ChipBuddie dustless paint scraper captures dirt and debris at the point of origin.

## DustBuddie® Dust Shroud

The DustBuddie Dust Shroud captures up to 99% of the dust created by a hand grinder – before it escapes into the air. With its brush skirt, adjustable height, and removable front lip, the DustBuddie performs smoothly and accurately.

## Dustie-RO™ Dust Shroud

The economical choice for dust collection when using sanders. Great for dust control in the automotive/boat repair industry and industrial applications.

## BitBuddie™ Dust Shroud

The BitBuddie dust and slurry control system is for use with drills, hammer drills and core drills. Fast and easy to use, the BitBuddie dust and slurry control system is held in place by vacuum pressure. No clamps or braces are required.

## SawBuddie™ Dust Shroud

Because the SawBuddie is a point-of-origin dust control system, it enables contractors to comply with EPA RRP regulations, when attached to a full unit certified HEPA vacuum

## Dustless Shroud Accessories

- 5" Cover Plate
- 7" Cover Plate
- Replacement Blades (set of 3, for ChipBuddie Scraper)
- 5" Cover Plate - fits modified 5" Dustie or 5" DustBuddie
- 7" Cover Plate - fits modified 7" Dustie or 7" DustBuddie
- Arbor Extender
- 18" Hose Adapter

# L-Series Scarifier

## WRS250G

The Levetec Lev-10 Scarifier provides exceptional performance and industrial strength to meet even the most demanding industrial applications where aggressive take up and consistent removal are required. This highly well built and versatile unit is supplied with a Electric motor. A powerful 220 or 480 Volt 7.5 hp electric motor, making for a powerful removal machine. Combine that with smooth operation and a practical weight of 240 pounds. A compact size in comparison to other market brands. The Lev-10 Scarifier is designed to be used with any Levetec vacuum.

## WRS250E

The Levetec Lev-10 Scarifier provides exceptional performance and industrial strength to meet even the most demanding industrial applications where aggressive take up and consistent removal are required. This highly well built and versatile unit is supplied with a Honda Gas power plant, a high quality 9 Hp Gas motor making for a powerful removal machine. Combine that with smooth operation and a practical weight of 240 pounds. A compact size in comparison to other market brands. The Lev-10 Scarifier is designed to be used with any Levetec vacuum.

- Zero Depth Height Adjustment
- Side access Drum assembly for quick and easy cutter replacement.
- Cutter Drum located centrally below motor for better balance and less vibration
- Vacuum hookup for practically dust free operation
- Compact design.
- No exposed moving parts
- Heavy duty Hex shaft, sealed bearings and toothed wide belt on drive system

# Accessories

## SCRATCH KIT

Test the floor before you quote! Don't get surprised by a hard floor that could add weeks to a polishing job. Based on the Mohs scale the scratch test kit comes with four double ended scribes. Using a preset weight on a chosen scribe and inserted on the sled the scribe is dragged across the floor surface. If the scribe scratches the floor you know that the floor is softer than that scribe value.

## Hand Grinder Accessories

### RIGID BACKER PAD

- BP3R** 3 Inch Rigid Backer Pad
- BP4R** 4 Inch Rigid Backer Pad
- RB-125** 5 Inch Rigid Backer Pad

### VELCRO BACKER PAD

- 7VP** 7in Velcro Backer Pad with Foam for Hand Grinder

# S26 Hepa Dust Extractor

The Pullman-Ermator S26 HEPA Dust Extractor is equipped with tested and certified HEPA filters that trap the smallest, most dangerous-to-breathe dust particles and prevents them from being released in the air. A HEPA Dust Extractor not only exhausts perfectly clean air, it is far more efficient for the fast recovery of bulk dry dust, debris and other building materials found on every Construction, Abatement and Restoration jobsite. They can also be connected to electrical power tools to extract the freshly cut and friable concrete dust, considered to be the most hazardous to construction workers.

## SPECIFICATIONS

Volts	120 / 230
HEPA Filter	18 sq. ft.
Cartridge Prefilter	18 sq. ft.
CFM	258
Waterlift	100

Amps	19.6 / 9.8
Shipping Weight (lb)	103

# S36 Hepa Dust Extractor

The model S36 is equipped with Jet Pulse filter cleaning, drop-down dust collection in a plastic bag and tested and certified HEPA filtration. What makes the S36 truly unique and unmatched in the concrete grinding and polishing industry is the quantity and size of its filters. It has a massive pre-filter with over 50-square feet of media, constructed in a cone-shape to reduce filter loading. The unique shape of the S36 pre-filter also improves filter cleaning, when necessary, via the Jet Pulse filter cleaning system. Our competitors have difficulty including a single HEPA filter with their vacuums. The S36 is equipped with three (3) independently tested and certified HEPA filters to guarantee that vacuum exhaust is absolutely dust-free!

## SPECIFICATIONS

Dimensions (in)	49 x 27 x 69

# T12600

T12600 is the perfect suction unit for a smaller, central vac system. It is the big brother of the T8600, but is also equipped with autostart, a larger cyclone and a HEPA filter whose surface has been increased from 5 to 10 m2. The filter surface is also 65 % larger, and is now 3.8 m2sup. This secures long continuous running without decreased suction power.

# C5500 & C3000

When your dust extractor is prematurely clogging due to large quantities of material, consider the C5500 or C3000 pre-separators. It captures 90% of the material before it reaches the dust extractor, keeping your dust extractor filters clean and extending your grinding operation longer without interruption. Equipped with Longopac for dust free containment and disposal.

# Electrical Accessories

## Electrical Cords

Electrical cords for the machines. Available in 50 and 100 foot lengths.

- 50' SO CORD with male and female connectors (220V, 1 or 3 phase)
- 100' SO CORD with male and female connectors (220V, 1 or 3 phase)
- 50' SO CORD with male and female connectors (480V, 1 or 3 phase)
- 100' SO CORD with male and female connectors (480V, 1 or 3 phase)

## Pig Tails

10' pigtails for hard wiring into generators and panel boxes.

- 10' SO CORD with connector (220V, 1 or 3 phase)
- 10' SO CORD with connector (480V, 1 or 3 phase)

## 220V Electrical Package

- 50' or 100' SO Cord w/ male and female connectors
- 10' Pigtail w/ connector
- 50 AMP 250 VOLT 3 PH Plug

## 480V Electrical Package

- 50' or 100' SO Cord w/ male and female connectors
- 10' Pigtail w/ connector
- 50 AMP 480 VOLT 3 PH Plug

## 220 – 480 Volt Three Phase Step Up Transformer

3 phase 220 volt step up to 3 phase 480 volt power. This transformer has a 10 ft. pigtail for 3 phase 208 volt input, and a 10 ft. 480 volt pigtail with a 50 AMP 3 phase connector.

## 480 – 220 Volt Three Phase Step Down Transformer

3 phase 480 volt steps down to 3 phase 220 volt power. This transformer has a 10 ft. pigtail input for a 3 phase 460 volt, and has a 10ft. 220V pigtail output with a 50 AMP 3 phase connector.

\*220 volt single phase and 110 volt outlets can be added to these packages.

## Voltage Cleaver

The Voltage Cleaver is used to tie two 110 volt legs together to produce 220 volt for machines that need higher HP, whereas 110 volt can only produce 1.5 HP.

- Suitable for machines up to 4 HP on this device
- Easy to Use
- Indicator Light will show when 220V power is ready

# Concrete Hardeners

## Leve-Sil™

Leve-Sil™ Hardener uses lithium or sodium chemistry to make the best concrete densifier available today. Concrete is exposed to harsh chemical, mechanical, and atmospheric elements that can cause the concrete to deteriorate. Leve-Sil penetrates into the substrate where it reacts with weak calcium hydroxide to form stronger and more stable tricalcium silicate hydrate.

### Leve-Sil Sodium

Most common application to densify concrete, very economical.

### Leve-Sil Lithium

Designed for harder concrete, can be applied at higher stages of grinding and polishing process and also can be used as a second coat in conjunction to Leve-Sil Sodium to increase penetration.

## Leve-Gard™

**Chemical Description:** High performance lithium-silica and polymer penetrant for concrete and masonry. Solvent-free.

**Uses:** To enhance all concrete surfaces. Ideal for stamped, colored or stained concrete. Can be applied to all hardened concrete, silicates, siliconates or dry shakes. Restore shine, hardness, stain resistance and cleanability to new or existing concrete surfaces. Excellent results can be obtained on older, worn substrates as well. Surface must be clean and dry before applying Leve-Gard.

**Maintenance:** Keep surface clean with an automatic scrubber or wet-mop. Use a neutral cleaner, such as Leva-Clean. Dry buff with a high-speed hog's hair pad to enhance gloss.

## LeveCryl™

LeveCryl is a concrete sealer and surface wear protector for all concrete surfaces, providing stain protection against water, oil and acid based staining agents.

Intended Use:

- Penetrating Sealer
- Polish Protectant
- Curing Membrane ASTM C 309
- Vapor Permeable

# Colors

## Dye-N-Seal™

Dye-N-Seal™ is a translucent dye, designed to penetrate and color any cementitious surface. Dye-N-Seal dries quickly, reducing installation time and construction costs. In most cases, cleanup and sealing can be done in the same day. It is ideal for polished concrete and it can be used as a base-color for Blush-Tone Acid Stain™ to achieve dramatic results.

Dye-N-Seal penetrates the surface of newly cured or existing concrete, creating a layer of translucent color that dries quickly and will not chip, crack, or peel. The colors produced in each section of concrete will be unique with captivating, multi-colored intensities that become a permanent part of the concrete. Colors can be combined to create an unlimited number of color variations. When applied properly, Dye-N-Seal creates intense color that has a look similar to the mottling effect of acid stain. Dye-N-Seal is packaged in powdered form to be mixed in proportion to acetone.

Dye-N-Seal is durable enough for commercial applications like restaurants, showrooms and retail spaces. It can be used to create vivid, new color for interior floors or concrete countertops. Dye-N-Seal can also be used to correct areas where acid stains have little or no reaction on the concrete surface. Dye-N-Seal is excellent in vertical applications, stencils, and logos because it dries so quickly. In addition; after 28 days, the concrete should be sealed with Leve-Gard Sealer for protection.

Note: Penetrating Additive is available as an option

## SureLock Polished Concrete Color System

SureLock Color System puts rich color into the slab, penetrating, hardening and protecting the color from the damaging effects of excessive moisture on and in the concrete. UV stabilizers in every step help protect against fading. And SureLock keeps defending the surface every day against stains, oils, and even etching agents like vinegar. We've formulated the chemistries of dyeing and densifying so they work together, bonding the dye to the concrete and penetrating deeper to help stabilize and protect color from getting a faded desaturated look.

## Penetrating Agent

With the addition of the PENETRATING AGENT, the acetone flash is delayed from 7-8 seconds, to 30+ seconds. This generally provides the necessary window of time for the dyes to penetrate. Additionally the penetrating agent, in many cases, will provide the opportunity to add color to floors which have already been densified and polished.

- Extends the drying time of solvent based dyes
- Extremely easy to use - add 1 to 4 oz. to a pre-mixed gallon of dye
- Can be applied to most cementitious surfaces
- Packaged in 30 oz. bottles that can be shipped by ground or air
